

Institution has created an ecosystem for innovations and has initiatives for creation and transfer of knowledge

The institute has created an ecosystem for Research and Innovation by recruiting & developing desirable human resource, taking initiative for creation & dissemination of knowledge and establishing state of the art infrastructure. The details are as under:

1. Promoting Innovation: The College has created an Entrepreneurship Development Cell (IEDC) for entrepreneurship activities. ED Cell **provides incubation support to the young entrepreneurs with innovative start-up ideas** and helps them transform their ideas into viable business enterprises and provides a platform for speedy development and commercialization of their products/technologies/services.

2. Center of Excellences: The faculty& students are encouraged to take up research & developmental activities by utilizing the existing resources. Our center of Excellences on Mat Lab, SPSS Lab have helped Our students to develop necessary skills & develop innovative projects in various domains.

3. Human Resources: The institute recruits dynamic & highly qualified faculty to mentor and channelize the young minds. Institute has taken an initiative to encourage the faculty members to pursue their Ph.D work. Faculty are also encouraged to participate in various skill enhancement programs under govt. schemes. Under Research & Development cell, Faculties are being motivated to write research papers and submit it to various reputed national and international journal, conference proceedings, edited chapters ,Books etc. Research Cell also helps to create research culture among faculty members and students.

6. Collaborations: The College has collaboration with Sun rise University, Alwar under which our students get an opportunity to undertake research internship. College has signed MOUs with few industries to promote real-time project development.
